

d_0

A thick, dark gray horizontal line spanning the width of the plot.

d_1

A thick, dark gray curve that starts at a medium height, dips smoothly to a minimum in the center, and then rises back to a medium height.

d_2

A thick, dark gray wave that starts at a medium height, dips to a minimum, rises to a maximum, dips to a minimum, and rises back to a medium height, completing one full cycle.

d_3

A thick, dark gray high-frequency wave that oscillates rapidly between a minimum and maximum height, completing four full cycles across the plot.
